

About us:

DAL Advance Logistics operates across the KSA its head office located in Dammam, Saudi Arabia.

Established in 2017, DAL assumed its present leading role in the transportation sector through its commitment to ever-improving levels of customer service.

We specialize in the safe, professional and timely movement of all types of manufactured goods, animal feed raw materials by land.

DAL understanding of individual customers' needs enables it to provide cost-effective, dependable logistics and transportation solutions for all types of animal feed cargo, no matter how complex or demanding.

DAL employs a workforce of 80 people and operates a fleet of 70 trucks and 85 trailers (bulkers-Hoppers-FB).

Our Vision:

DAL, your professional supply chain partner, rises to challenges many deem impossible. Through our relentless focus on continuous, innovative improvement, we aim to lead the market in setting standards in the KSA sustainable, dependable and responsible logistics at levels expected of today's world-class organizations.

Value :

Our workforce is valued for its knowledge, skills and expertise, working with shared values to achieve our goals together.

Mission :

To achieve high class services for our clients and continuous development while maintaining our commitment and integrity - ethics.

**When providing our services,
we are distinguished by:**

Time commitment

Our commitment to the deadline for delivery is one of the principles we are always keen on.

Insurance

We carry out insurance on shipments; to protect them from any damages that they may take, during shipping and delivery operations.

Roadworthy fleet:

We're dedicated to our clients and their shipments by providing high class maintenance of our fleet and professional maintenance team.
