# About Us

---

DAL Advanced Logistics operates across KSA its head office located in Dammam, Saudi Arabia.

Established In 2017, DAL assumed its present leading role in the transportation sector through its commitment to ever-improving levels of customer service.

We specialize in the safe, professional and timely movement of all types of manufactured goods, animal feed raw materials by land.

DAL understanding of individual customer's needs enables it to provide cost-effective dependable logistics and transportation solutions for all types of animal feed cargo, no matter how complex or demanding.

DAL employs a workforce of 200 skilled operators & staff operates a fleet 180 trucks and 200 trailers (AF Bulk-Hoppers-FB).

## Vision

DAL, your professional supply chain partner, rises to challenges many deem impossible. Through our relentless focus on continuous innovative improvements, we aim to lead Market in setting standards in the KSA sustainable, dependable and responsible logistics at levels expected of today's world-class organizations

## Mission

To achieve high class service for our clients and continue development while maintaining our commitment and integrity-ethics

## Value

Our workforce is valued for its knowledge, skills and expertise working with shared values to achieve our goal together

We provide specialized transportation services and logistics solutions tailored for the agricultural and poultry sectors. Our core services include:

Transportation of agricultural raw materials and animal feed

Delivery of finished poultry farm products

we offer specialized transportation services tailored for the safe and efficient delivery of day-old chicks

Our fleet is equipped to ensure the safe, efficient, and timely delivery of goods. We proudly serve clients across the entire Kingdom of Saudi Arabia and GCC countries, supporting the supply chain needs of farms

# When providing our services, we are distinguished by

---

## Time commitment

Our commitment to the deadline for delivery is one of the principles we are always keen on.

## Insurance

We carry out insurance on shipments; to protect them from any damages that they may take, during shipping and delivery operations.

## Roadworthy fleet

We're dedicated to our clients and their shipments by providing high class maintenance of our fleet and professional maintenance team.

## Operational Excellence – Professional Drivers

Our company takes great pride in employing a team of highly qualified and experienced drivers, who are a cornerstone of our reliable transport operations.

All our drivers are certified in both On-Road and Off-Road Defensive Driving, ensuring the highest standards of safety and professionalism across all types of terrain and road conditions.

Our drivers are trained to:

- Anticipate and safely respond to potential road hazards.
- Maintain the safety of cargo and vehicles in challenging environments.
- Apply proactive driving techniques that minimize risk.
- Adhere to internationally recognized defensive driving standards.

This advanced level of training provides our clients with added confidence in the safety, reliability, and efficiency of our transport services, and reflects our strong commitment to operational excellence.

## Fleet Capability – High-Capacity Tippers and Bulkers

Our fleet is equipped with high-capacity tippers and bulkers, specifically designed to maximize payload and enhance operational efficiency.

Compared to standard equipment, our vehicles offer greater load capacity, allowing us to transport larger volumes per trip. This not only reduces transportation costs for our clients but also improves delivery timelines and overall service performance.

These enhanced specifications make our fleet ideal for bulk transportation needs, especially in the agricultural, feed, and poultry sectors.
